

ROPAK™ 4048ns

4048ns Containers are perfect for:

- Grocery Distribution
- Hardware
- Metal Parts
- Plastics and Rubber
- Resins and Powders
- Retail Distribution
- Textiles
- Tools

Specifications:

CONTAINER MODEL

4025ns

Exterior Dimensions	length	47.3"/1201 mm
	width	39.6"/1006 mm
	height	25.3"/643 mm
Interior Dimensions	length	43.6"/1107 mm
	width	36"/914 mm
	height	19.6"/498 mm
	height to fill line	18.6"/472 mm
Drop Door Options		0, 1 or 2
Container Volume	ft ³ /m ³	17.0/0.48
Container Capacity		2000 lb/907 kg
Stack Height	Static	6
	Dynamic	4
Tare Weight (may vary)		130 lb/59 kg
Collapsed Height		13.6"/345 mm
Return Ratio		1.8:1
Truckload Quantity (Collapsed)	48' with lid/no lid	196/224
	53' with lid/no lid	210/240
Truckload Quantity (Open)	48' with lid/no lid	84/112
	48' with lid/no lid	90/120
40' ISO Container (Collapsed)	Std. with lid/no lid	126/147
	Hi Cube with lid/no lid	147/168
40' ISO Container (Open)	Std. with lid/no lid	63/63
	Hi Cube with lid/no lid	63/84
Standard Color		Black

ROPAKS IMPROVE YARN HANDLING, PLANT APPEARANCE AT INTERFACE

Replacing corrugated boxes with ROPAK™ reusable containers helped Interface Flooring Systems of West Point, Georgia, improve not only its material handling operations, but the appearance of its plant as well.

Interface Flooring Systems, one of the world's largest commercial carpet manufacturers with annual sales of more than \$1.3 billion, selected ROPAKs with two solid sidewalls and two drop doors. The stackable ROPAK containers serve as their own pallets, and include 4-way lift truck entry for easy handling.

"Although we store only about 700,000 pounds of yarn, we actually handle about 17 million pounds a year, and most of that gets handled two or three times," said Don Ellison, Interface's warehousing and backwinding manager. "There are lots of opportunities for container problems or damage, but we just haven't experienced any with these new ROPAK containers. The durability has been very good."

A

chieve greater material handling efficiency, convenience and cost savings with our 40" x 48" containers. The 4048ns is made of tough, durable high-density polyethylene (HDPE) for long-life performance under the harshest conditions and provides excellent product protection. Seven heights are available for greater application versatility, and drop doors have an articulating hinge that allows the open door to lay flat against the side of the container for tighter, safer storage.

¹This model is specially designed with a 3" storage space to accommodate dunnage.

All dimensions and specifications are approximate. Interior height dimensions measured from center; variances may result due to center crown. Tare weight is based on the 2-drop door black model and will vary based on color and configuration. Performance characteristics are based on uniform static loads and may be affected by concentrated loads and elevated temperatures. Standard drop door options include 1 or 2 drop doors on the 48" side(s) or 1 drop door on a 48" side, with 1 drop door on right, 40" side (not available on 4025ns).

Material: HDPE materials and workmanship guaranteed for 3 years.
